Other flights can be arranged in consultation with the officers on the spot.

Commercial leaflet dropping may also be arranged. Tickets for Joy flights will be available at Mandakally Aerodrome and also at the Exhibition Stall in 'G' Block.

It is hoped that the public will take full advantage of the opportunity afforded.

(P. N. No. 101—25-8-1952.)

Press Note.

As a measure of relief to the ryots whose dry lands in Chintamani Taluk, Kolar District, suffered due to scanty rainfall during the year 1951-52, remission of one half of the dry assessment and suspension of the other half also, is sanctioned in respect of the lands in 343 villages in Chintamani Taluk for the year 1951-52.

The sum thus to be remitted is Rs. 44,005-15-3.

(P.N. No. 102—25-8-1952).

Press Note.

Health of Livestock in Mysore State during July 1952.

In their order of severity, outbreaks of Rinderpest, Black-quarter, Haemorrahagic-sepricaemia, Anthrax, Sheep-pox, Ranikhet, Foot and Mouth and Contagious-goat pleuro-pneumonia were encountered in the State during July 1952. Altogether 191 villages were reported to have been affected by one or the other of the several contagious and infectious diseases as against 214 villages during the previous month. The number of outbreaks was highest in Bangalore, Shimoga and Chitaldrug Districts, while Hassan, Mysore and Mandya Districts were least affected. These diseases accounted for 887 attacks, of which 633 succumbed. The departmental staff conducted 37,655 preventive inoculations and vaccinations against all the above diseases except Foot and Mouth disease. In the absence of a reliable method of vaccinatory intervention other prophylactic measures were adopted against Foot and Mouth disease.

Seven outbreaks of Rinderpest were registered in Sagar, Hiriyur, Hosadurga, Devanahalli and Pavagada Taluks accounting for 128 attacks among cattle, of which 84 succumbed. Prompt measures of control were undertaken by the department to check its spread and 2,712 cattle in the infected villages and 5,044 cattle in 23 neighbouring villages were protected against this disease. The disease appears to be well under control at the end of the month under report.

Diseases caused by internal parasites were reported from 124 villages accounting for 24 deaths, as against 120 villages accounting for 109 deaths during the previous month. The special staff attached to the parasitic diseases control units of the department dosed 8,719 animals, as against 8,421 animals during the previous month.
